Moments to share

Welcome to a new season filled with warmth and moments to share together with us at Sagaform. As always, autumn and winter bring us closer, with open arms and togetherness at the heart of everything we do – reflected in both our latest collections and beloved Swedish Originals.

A Swedish original
since 1996

Sagaform novelties

This season's colour palette draws inspiration from nature, embracing deeper, richer shades. Soft, soothing hues blend effortlessly tone-on-tone, creating beautiful contrasts. Bordeaux, dark chocolate and mustard yellow mingle with both light and dark wood. Bold floral patterns in muted reds meet warm earthy tones, while striped crystal glasses on low stems blend function with stylish elegance.

We proudly present new Swedish Originals – timeless favourites designed to find their place on every table and in every home. Gurken Salt & Pepper by Daniel Enoksson, inspired by the geometry of mountain peaks, is this season's must-have. Coffee & More by Margot Barolo expands with beautiful additions, and for the first time, we introduce Blanka – a delicate, elegant crystal glass inspired by its sibling Billi, destined to become a future Swedish Original.

Our choice of materials – stoneware, crystal glass, recycled cotton, recycled stainless steel, rPET and more – highlights our ongoing commitment to sustainability. We continue to prioritise environmentally conscious options, gradually introducing more recycled materials into our collections. Central to this season is our concept "Moments on the Go", featuring collections such as Billi in rPET, City bags in rPET, and Tova & Ted alongside Ture & Vide – each lighting the way forward. We hope these collections join you on your journey, creating beautiful moments to share, wherever you go.

Welcome to AW2025 with Sagaform, where every shared moment becomes a memory for life.

Sustainability for the future

It should be easy to make good choices, which is a key part of the development of our sustainability work. At Sagaform AB, we put great emphasis on sustainability in our processes and take responsibility for how our operations affect people and the environment. Of course, we hope that you are satisfied with your purchased products but also with us as a company.

As part of the New Wave Group, we pursue active sustainability work towards a vision of sustainable growth where business solutions are not only financially favorable but also sustainable from a social and environmental perspective. What makes the biggest difference is how we conduct our everyday business. That is why we are working to integrate sustainability issues into our core business. The work includes, for example, improved working conditions in production countries, progressive chemical work, and streamlining transport and logistics.

Our common main goal with the sustainability work is to create products with the longest life possible, to minimize the product's negative impact on people and the environment during its life cycle. In our work, we take into account all three dimensions of sustainability -social, environmental, and economic.

One of our strengths is that we have our own CSR staff in place in the production countries who work full time on these issues. The work includes, for example, improved working conditions, progressive chemical work, and streamlining transport and logistics. Through internal controls in combination with independent reviews, we make sure that our products are produced under good social conditions and do not contain any harmful chemicals. Do you want to know more? Please browse our Sustainability folder which you will find on our website under Sustainability. There is an interesting read about all our CSR work through the New Wave Group.

You can also read more about how we work with CSR and sustainability on the parent company's website www.nwg.se. There we have gathered all information about important activities, collaborations, and goals for the future.

Give away a Swedish Original

At Sagaform we care about relationships. That is why we always regard our design as a great gift to someone we love but also for ourselves. The gift should be easy to give away with the purpose to raise many smiles on the receivers' faces.

Classic Scandinavian design in combination with carefully chosen details radiating stylish simplicity characterizes what we call Swedish Originals. Functional quality products caring about the familiar and which are created to be used and appreciated in many homes by many families for a long time to come. All of them packaged in a way which is appreciated and received just as they are.

Studio Sagaform

In our studio ideas are brought to life and dreams are shaped. Here we sketch on possibilities, design future originals and bring forth products which always find their way home. We are really proud of our inhouse studio where we combine experience with engagement and loyalty to Swedish design.

Designers

We also work with Sweden's leading designers, with whom we create familiar, well-made products and gifts with Scandinavian design, always ready to be given away. Together with names like Daniel Enoksson, Margot Barolo, Anton Björnsing and Pascal Charmolu along with many others we are proud of our heritage. Always with a focus on Swedish Originals.

Decoration

To us decoration should be classic, have a great function and always be appreciated to receive or give away. Here you will find products which both take up space and harmonize with the Scandinavian design.

Elise pot with plate

Elise pot with plate does everything right. It combines the design of colour, shape and details with practical additions like drainage holes and a plate which reaches higher up. Elise pot has a soft rounded shape with simple straight lines and is made of classic stoneware. The pot is decorated with an emblem and Sagaform's characteristic stripes. Elise has been glazed in four beautiful close to nature colours. A pot which will be a warm addition to every home. Designed by Studio Sagaform. Available in three sizes. Packed in a beautiful Sagaform box. Dishwasher safe.

Sten candle holder

The Sten brown candle holder is an elegant and timeless piece that brings both warmth and character to your home. Its round shape, characteristic of Sagaform's design language, is the perfect blend of function and beauty. Crafted from brown forest marble, each candle holder has its own unique pattern. The natural veining of the marble is reminiscent of branches and organic shapes found in nature, giving every piece a personal character. Designed for classic rustic candles, it looks stunning both on its own or grouped together. A design that will endure through generations, much like the traditions it represents. Design Studio Sagaform. Delivered in a classic gift box.

The Gurken Salt & Pepper mill is inspired by the mountain known locally as “Gurken”, rising above Solberg in Tärnaby, northern Sweden. Designed in collaboration with Swedish designer Daniel Enoksson, it captures the quiet strength of nature in a timeless, sustainable form – a piece of the north, made for everyday moments.

Gurken

In collaboration with Swedish designer Daniel Enoksson, we present the Gurken salt and pepper mill – a timeless and sustainable design that brings a sense of nature's grandeur into everyday life. Inspired by the rugged mountain landscapes, the mill embodies a raw yet elegant simplicity, with its conical base reflecting the stability and strength of the mountains. With great attention to detail, form, and proportion, Daniel has created a product that is not only functional but also part of something greater – a feeling, an experience, a piece of nature in your home. Crafted from certified beech with a high-quality ceramic grinder, built to last over time. The grind size is adjustable to suit your taste and needs. Available in three sizes and presented in an elegant gift box – a perfect gift for yourself or someone you cherish.

Daniel Enoksson

Swedish designer Daniel Enoksson has a background in sculpture, painting, and photography, shaping his unique approach to design. After studying at Beckmans College of Design, he established himself as a designer with one foot in industrial design and the other in the artistic world. His Stockholm-based studio serves as a creative platform where he crafts long-lasting and timeless products for a constantly evolving market.

Anton Björsing

Anton Björsing has his background from the distinguished Carl Malmsten School in Stockholm where he studied furniture design focusing on wood. Before that he explored design and wooden handicraft at the Steneby School. The austere Scandinavian design language runs like a thread through Anton Björsing's work. He works mostly with oak in combination with stoneware and glass, which gives the products a further dimension of exciting material contrasts.

Saga

Saga glass series is an important piece in our family of Swedish Originals. As the name reveals, we are extremely proud and sure of Saga being a part of our family for a long time forward. This is a classic glass series including wine glass, champagne glass, drinking glass and a carafe, all of which will take their special place in the kitchen cabinet. With its characteristic striped stem, on all of the parts, it stands out as well as blends in. Saga is perfect for the morning juice or the pancake milk, but it also has the power and strength to highlight any party dinner table in an extra festive manner. Saga can easily be mixed with what you already have and is a perfect gift and a desirable series to collect. Quite simply, a Swedish Original. Designed by Studio Sagaform. Made of soda glass. Packed in a beautiful Sagaform box. Dishwasher safe.

Inka cup

Inka cup with and without ear are thoughtfully designed mugs, perfect for everyday life at home or the office. Both styles are stackable and come in soft, nature-inspired tones, bringing a touch of elegance to any setting. With their rounded bases and Sagaform's signature striped rims, they offer a beautiful contrast of shapes. The Inka with ear provides added comfort, while the handle-free option complements it for versatility and easy stacking. Practical drainage channels in the base prevent water collection in the dishwasher. Made of New Bone China. Designed by Studio Sagaform and dishwasher safe.

Coffee & More

Coffee & More is a playful and versatile series produced by Sagaform in collaboration with designer Margot Barolo. The design draws inspiration from the bold and direct language of the 70s, creating a mix-and-match aesthetic that brings joy to any setting. This season's addition is deep plates, that adds a sense of comfort to every meal. The patterns and lines adorn the plate, creating a harmonious expression, making it perfect for soups, pasta or salads. With various pieces, patterns, and colours, each part of the Coffee & More series has its unique charm - perfect mixed together or as standout pieces. Made of stoneware, dishwasher safe, and packed in a beautiful Sagaform box.

Margot Barolo

Designer Margot Barolo was educated at Beckmans and also has a master's degree in ceramics from Konstfack. She has for a long time successfully worked with the Swedish art industry and during recent years also started challenging the picture of the production around this. Margot Barolo's unique design language and her love of ceramics shows in Coffee & More, the dinner service designed for Sagaform. Included in the series are stackable bowls, coffee cups, latte mugs and plates with inspiration from the 70's and its passion for ceramics with straight lines broken off by a multitude of patterns and playfulness. Her design language is tied together in peaceful nuances, high-gloss glazing and ornamented throughout in relief.

Hanna family

Hanna is a collection available in a variety of options and colours – now including new shapes and material choices. The series features different types of wood, such as natural walnut with its rich, dark colour and beautiful grain, as well as other sustainable alternatives. All woods are certified for sustainability and sourced from responsibly managed forests. In addition to the classic rectangular shapes, the collection also includes round trays, offering even more variety and versatility. Wood feels close to nature, warm, and easy to love. It also fits seamlessly into any home. The design is clean and simple with curved edges. An appreciated series designed for the future!

Astrid

Astrid is a series of classic kitchenware in a modern and conscious version. A series which combines function and design in the very best way. The blades of the series are made of stainless steel and the handles of beautiful, chocolate-brown wenge wood. Astrid grater is made from certified ash wood. Wenge wood is heavy, durable, shockproof and moisture resistant. Also, it's lively-looking and lovely with its decorative veining. The combination wenge wood and stainless steel is an exciting contrast between hard and soft, a classic with a tougher touch. Series Astrid is definitely a Swedish Original which never goes out of fashion. Packed in a beautiful. Sagaform box. Do not machine wash.

Outdoor living

Nature is important to us and also how we live in it. In this category you will find everything you need to really enjoy the Scandinavian nature, whether it's in the forest, on the terrace, on the road or at sea. Functional, durable and familiar are the keywords when we have developed this category and its products.

Doris enamel

The favourite Doris unites utility with pleasure, or rather design with function. Here it is the material which provides character. Enamel is durable, doesn't weigh much and with its capacity to withstand heat up to 225 degrees from an open fire, induction or in an oven, it becomes as functional outdoors as stylish looking indoors. The design is timeless with a discreet splash pattern. A classic, multi-functional and durable series containing mug, bowl, plate and pan in two sizes. Doris is available in black, green and beige. Withstands machine washing in upper basket on low temperature. Made in enamelled carbon steel and designed by Studio Sagaform. Don't use sharp items in the pan.

What is rPET?

rPET stands for "Recycled Polyethylene Terephthalate". rPET is a type of thermoplastic polymer used to manufacture many common products, such as plastic bottles for beverages and food packaging. rPET is simply recycled PET plastic. It is produced by recycling used PET products from the consumer stream, primarily plastic bottles. The process involves collecting plastic bottles, crushing them, and melting them down to create new plastic material. The recycled material can then be used to manufacture a variety of products, including bottles, packaging, textiles, and other plastic products. In this case, Billi.

Why do we use rPET?

The use of rPET plastic in products has several advantages, in our opinion. By recycling plastic bottles and other PET materials, the need to produce new plastic is reduced. This saves energy and reduces the amount of waste. The production of rPET plastic also requires less energy and resources compared to producing new plastic. By recycling and reusing plastic materials like PET, the concept of circular products and systems is promoted, where products and materials are reused instead of being discarded.

Ture

Ture is the perfect water bottle for every moment on the go – from the beach, to the gym, in the car, at the office, or on a walk. Made from rPET, a durable and sustainable material, with a lid in recycled PP or certified bamboo. BPA-free. The rounded lid design and subtle stripes on the bottle's body create a modern and functional style. A practical loop in TPR (thermoplastic rubber) makes it easy to carry and can be detached as needed. Available in nature-inspired colours, Ture pairs perfectly with Tova and Ted for a coordinated set. Handwash only. Volume: 60 cl. Design Studio Sagaform.

Vide

The Vide cooler backpack is a modern, innovative, and practical solution for every adventure from Sagaform. With its sporty design and muted tones, it fits perfectly whether you're in the forest or at the beach. The bag is divided into two sections: a lower compartment with a cooling function and an upper section for dry goods. Made from 50% recycled materials and equipped with waterproof seams. Two elastic bands secure bottles in place, and practical pockets around the bag provide extra storage. Reflective details enhance safety in low light. Cooler clamp included. Wipe clean with a damp cloth. Water column: 20,000 mm. Capacity: 21 litres (12 litres cooling compartment and 9 litres dry compartment). Design by Studio Sagaform.

Tova & Ted

We are proud to present two stylish and sustainable thermal mugs, Tova and Ted. Designed to fit all of life's moments - on the go, in the car, at the stadium, or on an outing. Tova and Ted are made to be with you, wherever life takes you. Both mugs are crafted from recycled stainless steel, combining innovation with sustainability. With clean design and the iconic Saga stripe in a nature-inspired colour palette, these thermal mugs are easy to love and easy to bring along. Without a doubt, we can promise that these two Swedish originals are here to stay.

Tova

Tova is a future classic for you who is on the go. The optimal thermal mug when you want to enjoy something drinkable on all occasions. Tova's double walled, vacuum insulated design has a high-quality thin copper layer on the outside of the inner wall providing better insulation which keeps the temperature. The ceramic inside and the possibility to drink from the mug 360 degrees enhances the feel of the beverage and creates the perfect drinking experience. Tova's stylish powder coated look is moulded from recycled stainless steel with no seams and patterned with the characteristic Saga stripe. The mug is easy to take apart and easy to clean which also makes it suitable for beverages like smoothies.

Dishwasher safe. Leak proof. It keeps the cold for 8 hours and the heat for 4 hours. Holds 32 cl. Design Studio Sagaform. Delivered in a classic Sagaform box.

Ted

Ted thermal mug quickly becomes a favourite for you who always want to have a warm or cold beverage at hand. The design, in recycled stainless steel, is easy to grip and has a practical handle plus a smart push function on the lid. Ted is stylish and patterned with the characteristic Saga stripe. The double walled, vacuum insulated design has a high-quality thin copper layer on the outside of the inner wall providing better insulation which keeps the temperature. To drink from the mug 360 degrees, as if there wasn't a lid, creates the feeling of drinking from your favourite cup. Dishwasher safe. It keeps the cold for 8 hours and the heat for 4 hours. Holds 28 cl. Design Studio Sagaform. Delivered in a classic Sagaform box.
